News Release

Aerospace Turbine Rotables Inc. Announces AS9100B Certification

Wichita, KS, October 20, 2014 – Aerospace Turbine Rotables Inc. (AeTR), a wholly owned subsidiary of First Aviation Services, Inc., announces that it has received AS9100B certification.

After more than a year-long effort to update its systems and procedures to meet or exceed the most stringent aerospace standards, AeTR successfully passed its AS9100B certification audit this summer.

AS9100B certification will allow AeTR to compete for several programs supporting both the United States government, and the aerospace industry's leading manufacturers.

"The AeTR team is proud of this AS9100B achievement," says Dave Seavey, Vice President and General Manager of AeTR. "Every one of our employees participated in the extensive effort to update AeTR's operations to meet all of the aerospace industry's latest and most stringent quality control standards."

AeTR, First Aviation and Piedmont Propulsion Systems, LLC are exhibiting at the National Business Aviation Association exposition in Orlando (Booth # 5045) this week.
