Aerospace Turbine Rotables, Inc. Announces Major Expansion in Wichita, KS

Wichita, KS, March 27, 2015 – Aerospace Turbine Rotables, Inc. (AeTR), a wholly owned subsidiary of First Aviation Services Inc., announced today the relocation to its new facilities at 1919 East Northern, Wichita, KS to be completed on June 1, 2015.

The 72,000 sq. ft. facility has gone through an extensive fit up to permit a doubling of AeTR's operational capacity and to accommodate the firm's continued growth. Over the last year AeTR successfully introduced new capabilities in each of its major product lines including landing gear, structural repairs, hydrostatic, flight control, safety equipment, electrical and hydraulic.

"We have some of the most talented people in the industry and with this new state of the art facility they will be able to provide even more capability to our customers." says Dave Seavey, Vice President and General Manager of AeTR. "We do not expect any interruption of service during the move as both the current and new facilities will remain in operation and be FAA-certified during the transition."

About Aerospace Turbine Rotables Inc. (www.turbinerotables.com)

Aerospace Turbine Rotables, Inc. (AeTR), a subsidiary of First Aviation Services Inc., has over 40 years' experience as an FAA and EASA certified repair station in the repair and overhaul of various aircraft system components, primarily serving the corporate, paramilitary and military markets.
